

Sketching

Tips & tricks

1.1 Layers

1.2 Erasers

1.3 Move, scale, rotate & copy

1.4 LiveView

1.1 Layers

Layers allow you draw on transparent sheets that are stacked upon each other. The sheets, or layers, may be rearranged, hidden or deleted. The base or **Template layer** is also included so you can hide any template you have in use on your pages.

The three dot menu next to each layer in the Layers tool on the sidebar allows you to quickly access the actions menu.

The Layers action menu allows you to quickly rename, edit and reorder your layers. Helping you add more organisation, dimension and creativity to your work.

1.2 Erasers

 **Regular eraser** is available in three different sizes. Select a size in the **top menu bar**.

 **Erase area tool** allows you to draw around an area you want to delete, for quicker erasing of larger spaces.

 **Erase page tool** erases the whole page for a fresh start.

↕ 1.3 Move, scale, rotate and copy

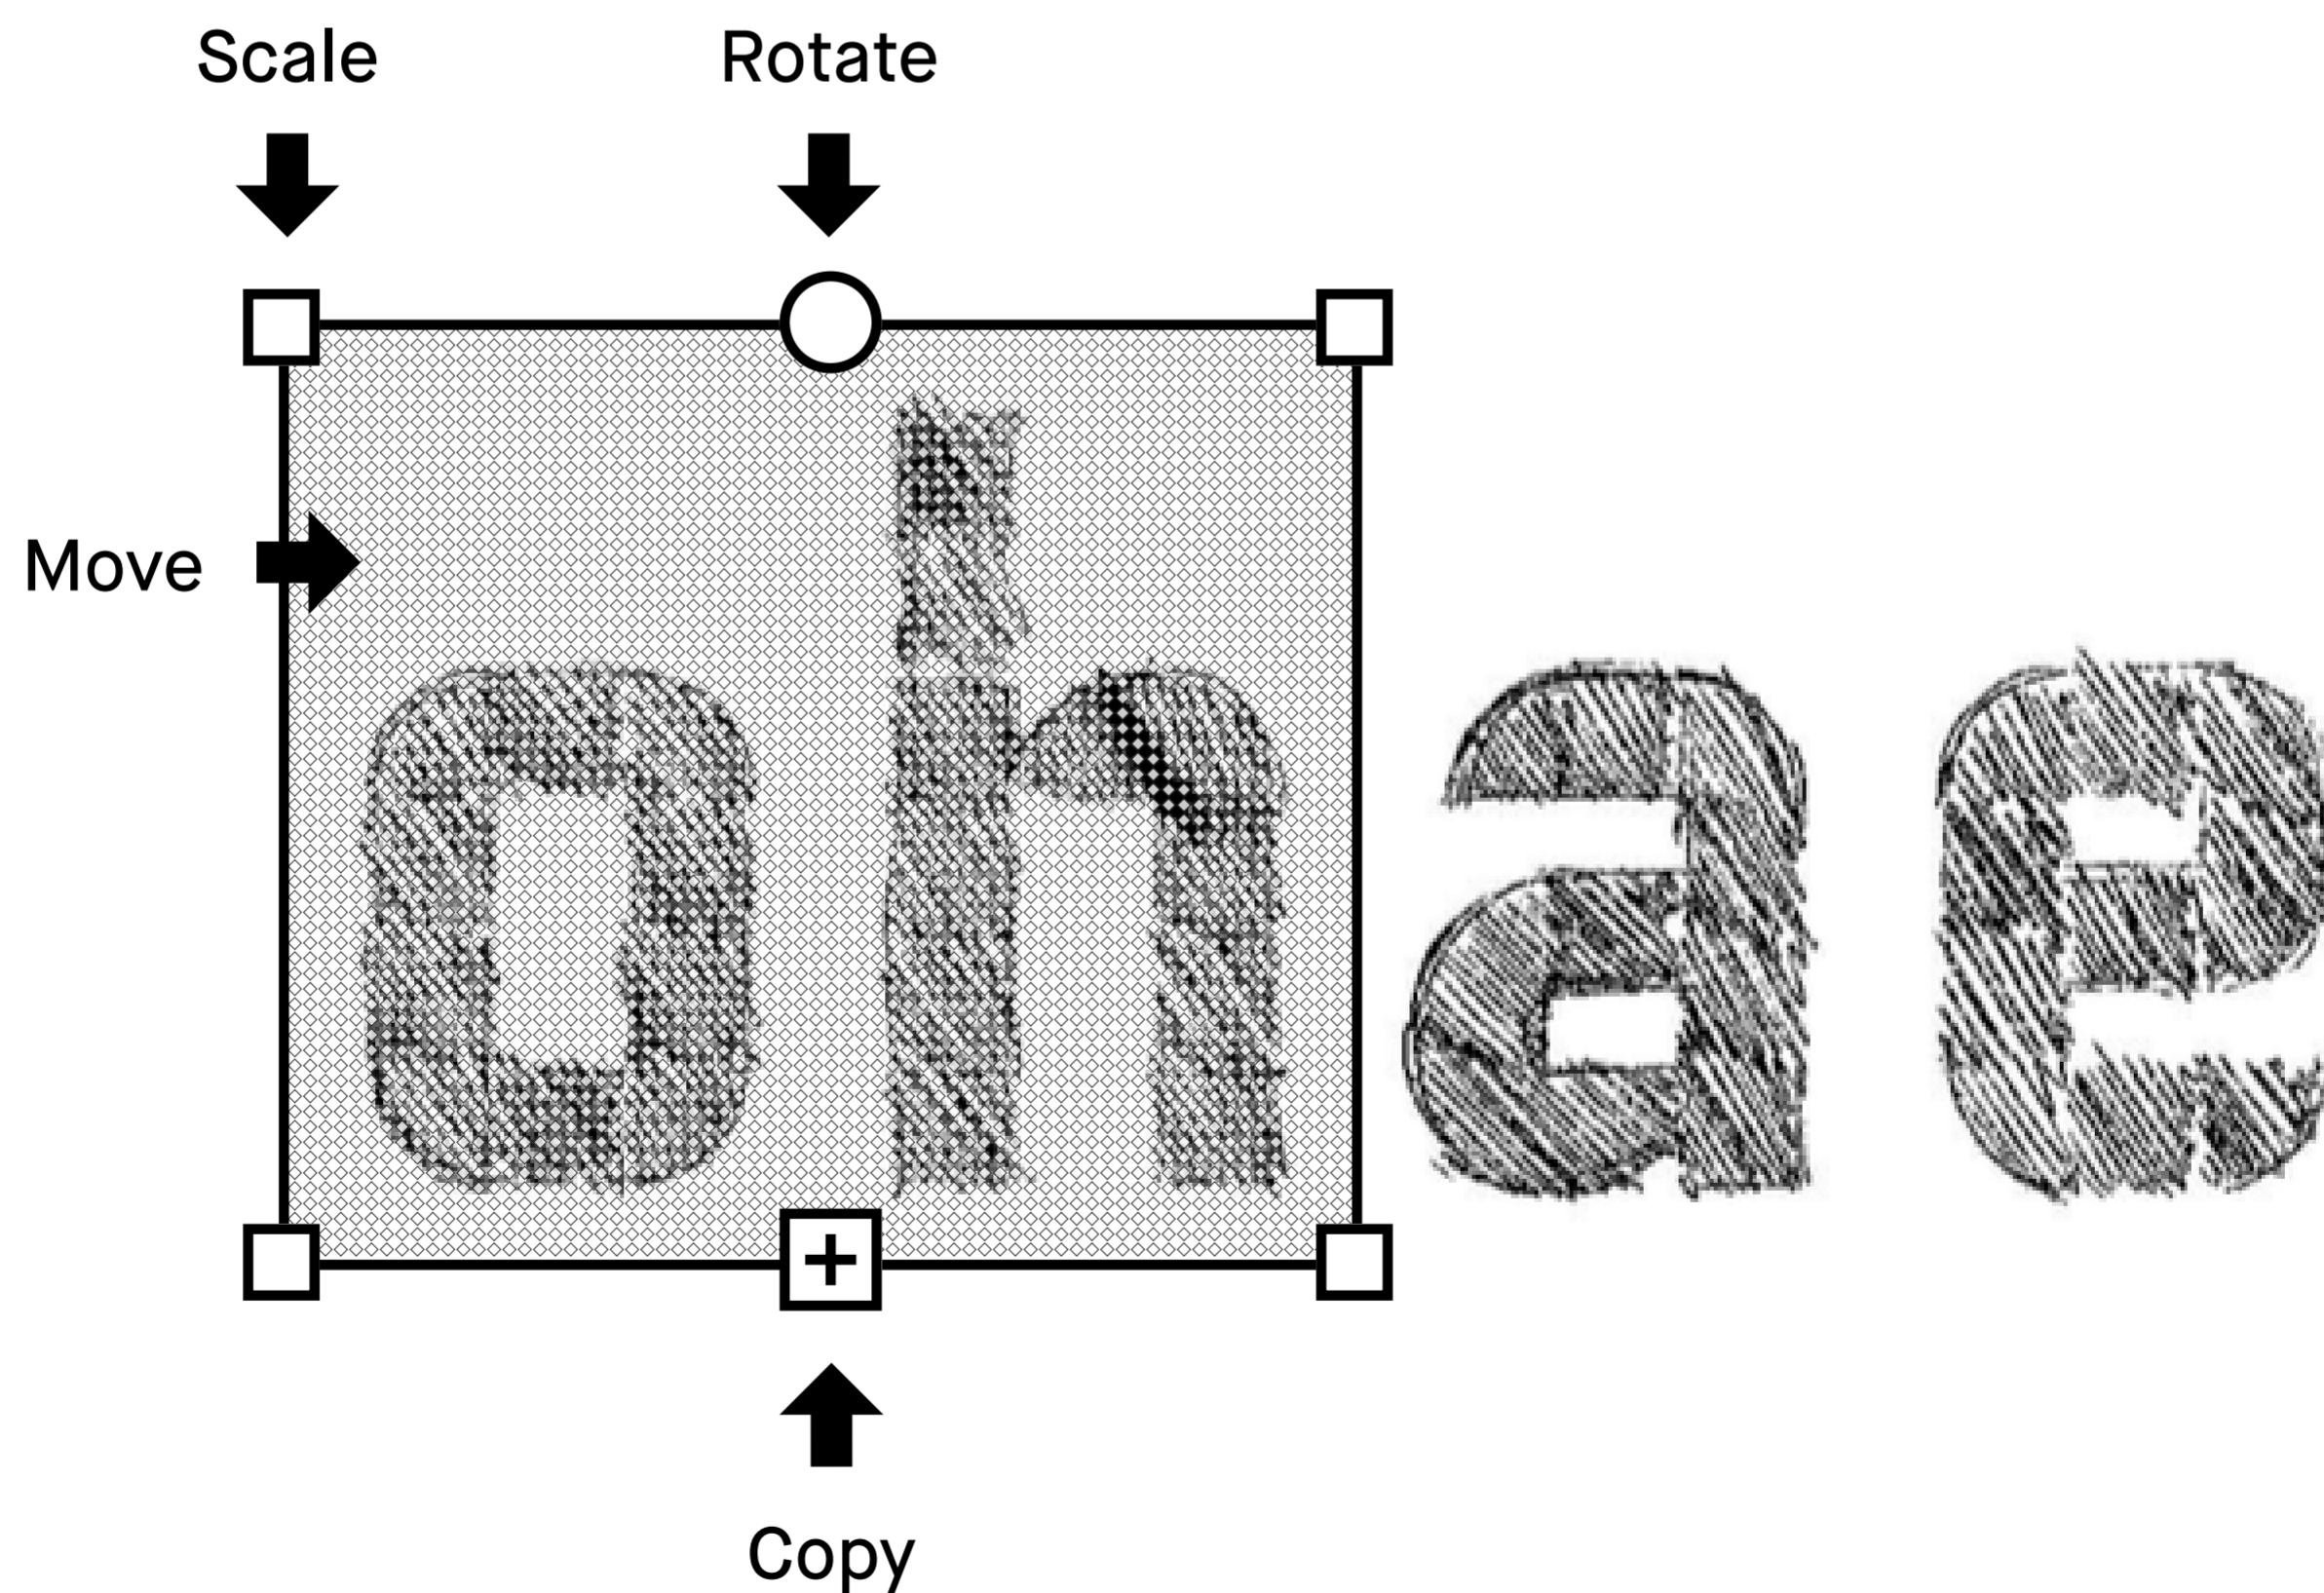

reMarkable's digital powers are shown with this tool, enabling you to rotate, move, scale and copy drawn objects.

How to use the move tool

Use the marker to draw around an area, and make sure all strokes of the object are inside the marked area.

- **Move** an object by tapping inside the boundary box and dragging the object to the desired position.
- **Scale** an object by dragging one of the corners to adjust the size.
- **Rotate** an object by dragging the circle on top of the boundary box in the direction you would like it to rotate.
- **Copy** by tapping the plus-icon on the boundary box to create a copy of the object. You can now select and move a copy of the object.

Tap outside the marked area to complete the action.

1.4 LiveView

Use LiveView to instantly show what you are writing or sketching on your computer. Note that you must be connected to Wi-Fi and logged into your desktop app to be able to use LiveView.

How to LiveView

1. Start LiveView by opening a **notebook**.
2. Tap the **three dots menu** in the top menu.
3. Select **LiveView**. Tap **Accept LiveView** in your desktop app to start the session.
4. End LiveView by tapping **Turn LiveView off** on your device.
